It is my pleasure to invite you to read the next, the fourth issue of this year's scientific periodical MAZOWSZE Regional Studies. At the same time, I would like to sincerely thank all our Authors for their excellent, content-rich articles, which not only contribute to the development of science, but also provide real tools that can be applied in practice; all the Reviewers for their diligent work and insightful, constructive comments, allowing the authors to develop their scientific workshop, and all the Readers who, reaching for our publications (both in paper and digital versions), throughout the year gave us energy to act, change and develop.
