Ladies and Gentlemen, the latest issue of the Mazovian Voivodeship Self-Government's scientific publication MAZOWSZE Regional Studies contains materials from the conference entitled Building the Future of Mazovia Together. The date of the conference coincided with the start of work on updating the Development Strategy of the Mazovian Voivodeship and the Voivodeship Spatial Management Plan. The update of the documents is taking place in a peculiar situation, as the shape of the European Union budget for 2014-2020 is still unknown.
