The Network of Volunteer Fire Brigades in the Diocese of Plock is the most extensive of Father Andrzej Zakrzewski's works published to date - it runs to more than 400 pages - on firefighting. As a reminder, in past years books have been published on the subject of firefighting in the Sierpc district, the Tłuchów deanery, on firefighting units in the parishes of the Plock diocese, as well as publications on the patron saint of firefighters, St. Florian, and the firefighting ritual which are liturgical and pastoral aids aimed at firefighting chaplains and pastors who minister among firefighters.
