The article presents the financial mechanism called Regional Territorial Investments (RIT) and the status of implementation of planned projects in the Płock subregion. RIT is a new financial instrument within the Regional Operational Program of the Mazovian Voivodeship for 2014-2020, introduced by the Mazovian Voivodeship Self-Government in order to implement the development policy contained in the Development Strategy of the Mazovian Voivodeship until 2030. Innovative Mazovia, aimed at Areas of Strategic Intervention.
