The article presents the support instrument called Regional Territorial Investments (RIT), operating in the Mazovian Voivodeship in the financial perspective 2014-2020 and its implementation in the Siedlce subregion. RIT is a financial mechanism created by the local government of the Mazowieckie Voivodeship within the framework of the Regional Operational Program of the Mazowieckie Voivodeship 2014-2020 to support related projects in non-metropolitan areas. The RIT formula - based on a territorial approach, as in the Integrated Territorial Investments for the Warsaw Functional Area - allows support for problem areas of strategic intervention identified in the Development Strategy of the Mazowieckie Voivodeship until 2030.
