In 1920, the authorities of the State Conservatory of Prehistoric Monuments began efforts to establish the State Museum of Archeology (PMA). The institution was established by a decree issued on March 22, 1928 by the President of the Republic Ignacy Moscicki. Since its establishment to date, more than 360 exhibitions have been displayed, and PMA staff have examined more than 450 archaeological sites in Poland, Iraq, Peru, Germany, Austria and the Czech Republic.
