The article gives suggestions on how to include Mazovian monuments in the tourist movement and how to make monuments an attraction that will attract tourists every weekend. There are more than 6,000 listed monuments and more than 6,000 archaeological sites in Mazovia. However, few of them are known to the average Mazovian. That is why the idea of creating a Route of Mazovian Princes was born, which runs through the whole of Mazovia, linking about 100 localities worthy of visitors' attention. Thematic tourist trails are one way to promote the region's cultural heritage.
