On March 22, 2019, a presentation of the Urzecz Riverside Yearbook, scientifically compiled by Dr. Łukasz Maurycy Stanaszek and Dr. Piotr Rytko, took place at the Town Hall of Góra Kalwaria. The publication was prepared by the Society for the Care of Monuments (Czersk Branch) and aims to further popularize the historical and cultural heritage of the Urzecz River - an ethnographic region located on both sides of the Vistula River, south of Warsaw.
