The Warsaw Metropolitan Area Conference was organized by the Mazovian Regional Planning Office in Warsaw. Its purpose was to present the materials prepared since 2004 for the spatial development plan for the Warsaw Metropolitan Area and to confront them with plans drawn up in other European metropolises. The plans were also confronted in the context of the importance of metropolitan plans for regional development and their position in the planning system. The materials presented by the Mazovian Regional Planning Office were prepared in the form of the publication of the Study of the Spatial Development Plan of the Warsaw Metropolitan Area.
